James Denton's

Room For Two

Denton with costar Teri Hatcher on ABC's *Desperate Housewives*.

How the *Desperate Housewives* star created a shared space for his son and expected daughter

Bellissimo says she chose "boy colors" for Sheppard's first bed and pink accents for his sister's so "[each child has] their own space."

The children's room features a crib set (\$300), wall art (\$50) and two hampers (\$30 each) from Bellissimo's Starlight Collection (wendybellissimo.com), which she calls "dreamy."

The Dentons

■ **The details** Why was James Denton, 42, relieved when *Extra* enlisted designers Michael Moloney and Wendy Bellissimo to create a nursery for his son, Sheppard, 2, and soon-to-be-born daughter? Because the actor had moved into his unfurnished Glendale, California, home on February 26 — just weeks before the March due date of his wife of three years, personal trainer Erin.

■ **The verdict** "It's nice how they kept [everything] on the kids' [eye] level," Erin tells *Us*. Adds James, "It's a little sanctuary away from the chaos in the rest of the house."
